Each zone is a different experience. A different story, but the same love for sport and food. You are in a place that is supposed to be a true Temple of Sports. We want to thank those who inspire us for their commitment, persistence and motivation. Regardless of whether you win or lose, remember that the perfect motivation on the way to your goal are other people - those who achieve these goals. We invite you to join our team and create a unique place full of great emotions - not only those on the pitch. Let NINE'S be the beginning of our joint adventure in the spirit of sport and fair play.

## MONDAY BURGER

### 1+1 FOR GROSZ

We've prepared something special - the MONDAY BURGER promotion, a deal that has won the hearts of burger lovers. Every Monday, when you buy one burger, you'll get a second one - at the same or lower price - for just 1 grosz! It's an offer you can't miss, perfect for gatherings with loved ones, evenings with friends, or simply indulging in a burger feast after a long day. Our burgers are a true symphony of flavors, with their uniqueness rooted in the details. Each one is served in a signature pretzel bun, adding a distinctive character to our creations. The richness of taste is also found in the carefully curated toppings, ensuring the highest quality in every bite. At NINE's, we embrace diversity - our menu features classic, vegan, and gluten-free burger options, so everyone can find something to suit their dietary preferences. MONDAY BURGER is the perfect excuse to try our unique offerings and keep coming back for more. Join us every Monday - burger bliss awaits you at NINE's!

## NEW SPECIAL STEAKS

Our offer now includes unique steaks from Podlasie. Hereford cows are fed with hay and grass, and in winter mainly with corn, which significantly improves the quality of the steaks. The meat is very tender, delicate with a noticeable hint of sweetness. At NINE's we serve steaks from heifers, because their meat is much more delicate than from bulls. We offer both dry and wet seasoned steaks.

### WET SEASONING

This is the most popular method of seasoning. Selected pieces of meat are vacuum sealed in special bags. Such elements are stored in a cold store and aged for about 14 days. During this time, the enzymes found in the meat, under the influence of natural biochemical reactions, change the structure of the meat. It becomes more loose, brittle and delicate.

### DRY SEASONING

The meat is seasoned with the bone, which ensures that the structure of the muscles is maintained. The bone is also a factor causing condensation of the beef flavor. Such seasoning also eliminates the shrinkage of muscle fibers during frying, which affects the tenderness of the meat. The meat is hung in refrigerators with special conditions: temperature 2-4 degrees Celsius, humidity 80-86% forced air circulation. During dry aging, significant weight loss occurs due to the evaporation of water in the plasma. The loss ranges from 25-50%. Dry aging is considered a more noble method because it develops the flavor and aroma of the meat better.
